

# Integration with Informatica Enterprise Data Catalog

YourDataConnect has developed a solution to ingest metadata from Informatica Enterprise Data Catalog.

## Informatica Enterprise Data Catalog (EDC)

Informatica Enterprise Data Catalog is an AI-powered data catalog that provides a machine-learning-based discovery engine to scan and catalog data assets across the enterprise. Figure 1 displays the resource, database, schema, table, and column metadata in the EDC.

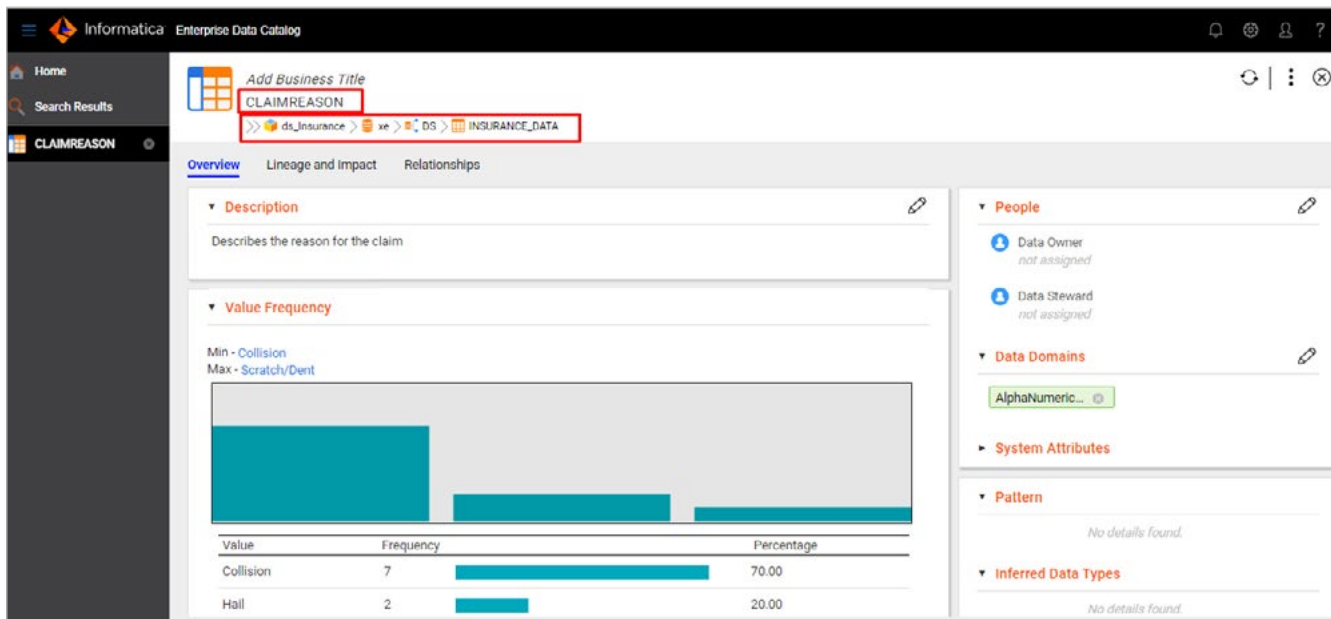

Figure 1: Resource, database, schema, table, and column in EDC.

## Integration of Informatica Enterprise Data Catalog with YourDataConnect

YourDataConnect has developed a solution to import resource, database, schema, table, and column metadata from EDC while maintaining the hierarchy between these objects (see Figure 2).

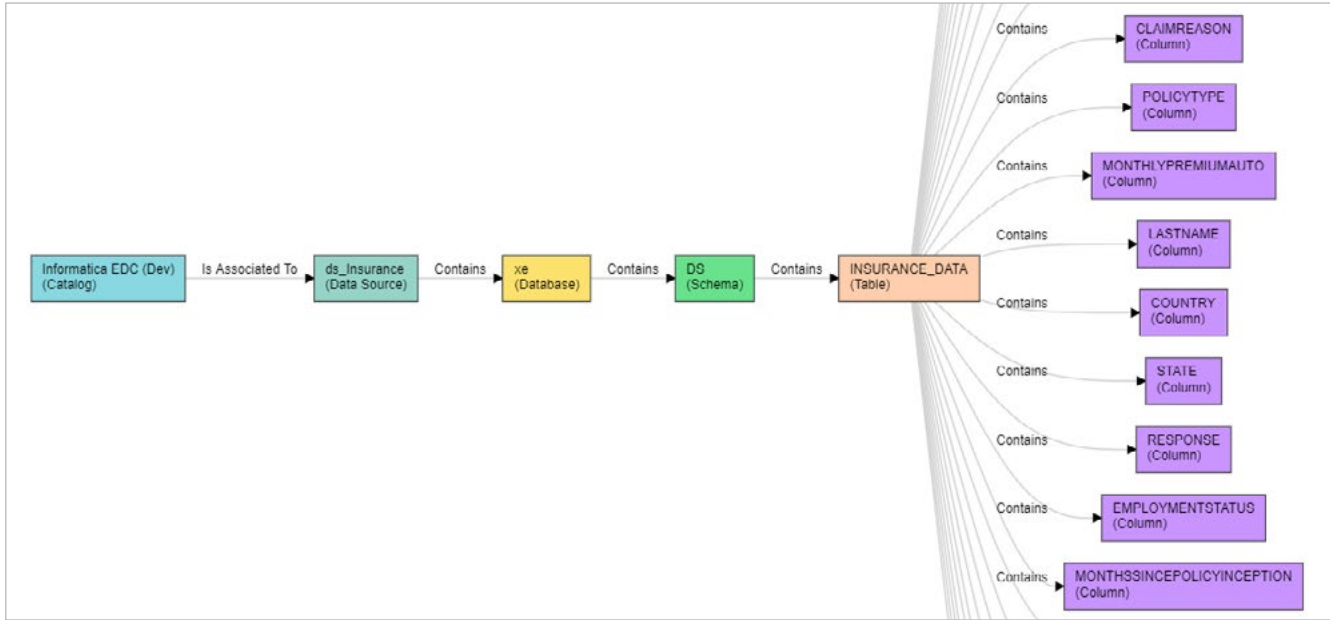

Figure 2: End-to-end traceability of Informatica EDC in YourDataConnect

To learn more about this solution, please request a demo by contacting [info@yourdataconnect.com](mailto:info@yourdataconnect.com) or visit our website at [yourdataconnect.com](http://yourdataconnect.com).
