

Integration with Oracle Database

YourDataConnect has developed a solution to transfer metadata between Oracle Database and YourDataConnect.

Oracle Database

Oracle Database (commonly referred to as Oracle RDBMS or simply as Oracle) is a multi-model database management system produced and marketed by Oracle Corporation. It is a database commonly used for running online transaction processing (OLTP), data warehousing (DW), and mixed (OLTP & DW) database workloads. Figure 1 shows the database, schema, and table in Oracle.

Figure 2 shows the columns in Oracle.

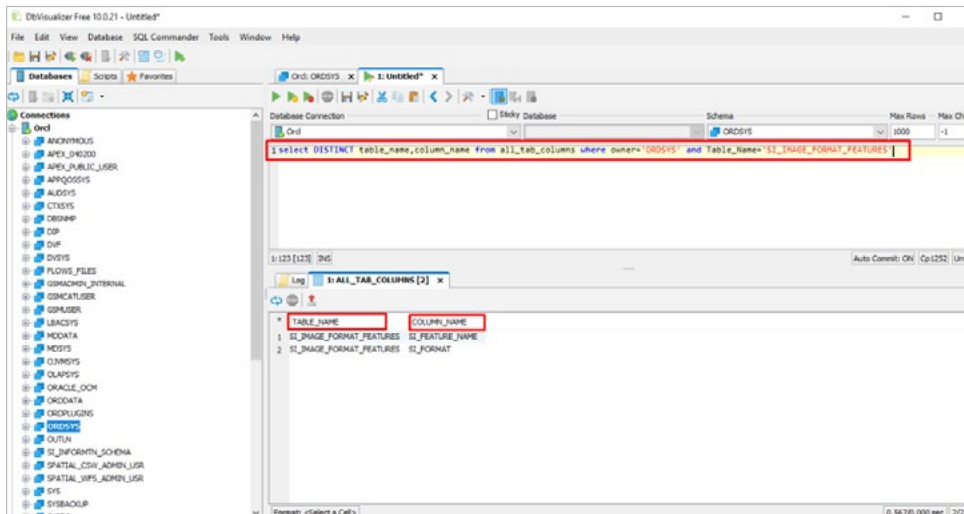

Figure 2: Column in Oracle.

Integration of Oracle with YourDataConnect

YourDataConnect has developed a solution to import database, schema, table, and column metadata from Oracle into YourDataConnect while maintaining the hierarchy between the Oracle objects in YourDataConnect (see Figure 3).
