

# Accelerator for Utilities

YourDataConnect has created a data governance accelerator to support data governance within the utilities industry including smart metering.

The Utilities Accelerator includes sample glossaries, business terms, business rules, policies, and data governance operating models commonly used within the utility industry.

What is included within the YourDataConnect data governance operating model?

- Extensive glossary terms
- Policies
- Business rules
- End-to-end traceability

Figure 1 shows the end-to-end traceability from a business term to business rules, glossary, regulation, and policy in YourDataConnect.

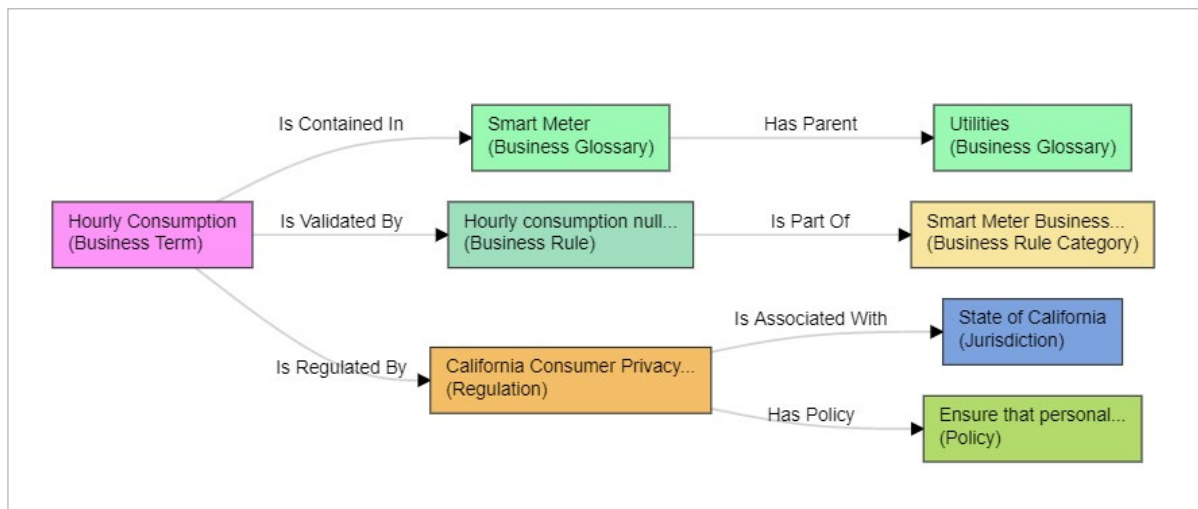

Figure 1: End-to-end traceability in YourDataConnect
