

JOB TITLE:

Data Valuation Analyst

POSITION TYPE:

Full Time / Contract

LOCATION:

Remote with up to 30% travel

SUMMARY/ OBJECTIVE

Are you ready to disrupt Data Management? For too long, data management professionals have focused on the “how” versus the “why.” Data Monetization requires a unique blend of finance, data management and technology skills to help organizations value their data and realize quantifiable financial benefits.

Working independently, or as part of a team, you will have the opportunity to work at the front end in a rapidly growing business.

At YDC™, you are required to have superior communication and writing skills, technical problem-solving skills, and a customer orientation such that you can handle any issue that arises. You will advise and guide customers, helping them through their journey alone or with a team on several different engagements at once. You can understand complex technical and business concepts and explain them straightforwardly to others. Your ultimate mission is to deliver a first-rate client experience and positive brand awareness for YDC™.

DUTIES AND RESPONSIBILITIES

Essential Functions:

- Research across financial information and translate into Data Balance Sheet
- Develop creative solutions to missing aspects of the Data Balance Sheet
- Present Data Balance Sheet use cases to internal / external stakeholders

POSITION REQUIREMENTS

- Passion for data and analytics and the ability to turn data into dollars aka Monetize the data.
- Ability to do deep research into business use cases and present scenarios to monetize revenue from existing resources, capture hidden opportunities or potential opportunities buried in Big Data.
- Ability to leverage disruptive approaches including data mining, quantitative analysis, portfolio optimization, and cloud-based solutions.
- Excellent communication (written and oral), presentation, and interpersonal skills

WORKING ENVIRONMENT/TRAVEL REQUIREMENTS

This is a remote working position and you will be expected to work out of a home office with high-speed internet and phone connection to enable seamless virtual presence.

This position requires up to 30% national travel.

ABOUT YDC™

YDC™ provides a holistic platform that identifies financial metadata for all your data assets to drive data monetization.

YDC™ is a SaaS-enabled data monetization platform that helps companies manage their data value chain more effectively to reduce costs, discover new revenue potential, and mitigate regulatory risk.

Leveraging best practices across data management, technology, regulatory compliance, and finance, YDC™ supports the following components: Data Balance Sheet, Data Valuation, Data Risk Register and Data Exchange.
